

“Unleash your skills”

ABOUT US

Innventors is a company offering an educational program teaching kids technological competencies (coding, robotics and design) and soft skills (problem solving, communication, social skills, etc). At Innventors, we believe in helping the younger generation develop their technological literacy within a playful environment. Having successfully run amazing workshops in Colombia, we are excited that our program is now expanding here in Canada.

PROBLEMS

- Not enough people are prepared for the 4th Industrial Revolution
- Gender gap is larger in affluent countries for STEM jobs
- 65% of today's children will end up working in jobs that don't yet exist

SOLUTIONS

- Program aimed at solving social, ecological and cultural issues
- Develop 4.0 Industry Skills
- Fostering the future leaders

ROAD MAP

- 2017:** Over 1,200 kids joined the Innventors movement, with more than 45 workshops during the first year
- 2018:** Partnership with Lenovo
- 2019:** Innventors lands in Canada
- 2020:** Development of a franchise model allowing us to grow and spread the movement

PRODUCTS

- Extra - Curricular workshops
- Themed parties
- Summer Camps

VALUE

- Programs designed and developed by experts
- Constant research and development working with education professionals to offer innovative programs
- Social component: build your own project and share it with other Innventors members
